

Structural and Computational Biophysics Discussion Group

Foothills Brewing Company (side room)
638 West 4th Street, Winston-Salem, NC
(<http://www.foothillsbrewing.com/>)

February 5, 2007, 3:30-5:30 pm

Martin Guthold, Dept of Physics

The extraordinary mechanical properties of fibrin fibers

March 5, 2007, 3:30-5:30 pm

Jacquelyn Fetrow, Depts of Physics and Computer Science

Structure and dynamics of peroxiredoxin functional sites

April 2, 2007, 3:30-5:30 pm

Linda McPhail, Dept of Biochemistry

NADPH Oxidase: redox and regulation

Everyone (faculty, students, post-docs and all) with an interest in structural and computational biology and biophysics is invited!

For more information, please contact Jacque Fetrow, fetrowjs@wfu.edu
